## OTHERS:

For some of the Book Distributors/vendors, we've listed a rep (recommended by ComicsPRO members) who can help you or a website where you can download an application. One advantage of working with a rep is that they will contact you when various publishers have deals, can let you know about special things coming down the line, and can also help you reach minimums.

Please verify ALL discounts and order minimums with the various distributors. While attempts were made to verify the information some of it may be inaccurate.
